## Humanitarian Aid and Disaster Relief Logistics

**Course Aim** This course aims to provide students with knowledge and understanding of the principal technical challenges encountered in supporting emergency humanitarian operations. It aims to enable students to adopt a reasoned and evidence-based approach to anticipating and identifying the technical challenges of conducting disaster relief and humanitarian aid logistics, to develop and evaluate strategies for their management, and introduce students to employability skills through the practical application of relevant knowledge and the utilisation of assorted skills and competencies.

**Short Title** Humanitarian Logistics  
**Faculty** Business  
**Polytechnic Level**  
**Credits** 15  
**Pre-requisites** Nil  
**Co-requisites** Nil  
**Anti-requisites** Nil

**Version** 1  
**Effective From** September, 2016  
**Indicative NQF Level** 6  
**Student Contact hrs** 56  
**Self-directed hrs** 94  
**Other directed hrs** 0  
**Total learning hrs** 150

Learning Outcomes	On successful completion of this course, students will be able to:	NQF Sub-strand
1	Demonstrate detailed knowledge and understanding of humanitarian logistics and the key stages of disaster relief (mitigation, preparedness, response, recovery).	Theoretical Understanding
2	Apply a range of practical, transferable and problem-solving skills when planning and conducting logistics for disaster relief and humanitarian aid.	Practical Application of knowledge
3	Demonstrate a critical understanding of employability skills and the importance of continuous evaluation and improvement when planning and conducting logistics for disaster relief and humanitarian aid.	Generic, Problem Solving and Analytical Skills
