

TL8302 Supply Chains and Risk Management

Course Aim This course aims to extend students' skills in the identification, measurement, monitoring analysis and mitigation of risks to supply chains arising from natural and man-made causes. Using experiential learning approaches, it seeks to provide students with critical skills and knowledge for managing supply-chain risk, from strategy to implementation.

Short Title	Supply Chains and Risk	Version	2
Faculty	Business	Effective From	September, 2017
Polytechnic Level		Indicative NQF Level	8
Credits	15	Student Contact hrs	56
Pre-requisites	TL7000 (or TLB6000) OR BU7201 (BSB6201) + 30 credits at level 7 (or BPQF level 6 or a combination thereof) (courses from the BILM PAD or the Bachelor of Business Management Major) + 15 credits of English (or equivalent)	Self-directed hrs	94
Co-requisites	Nil	Other directed hrs	0
Anti-requisites	TLB7302	Total learning hrs	150

Learning Outcomes On successful completion of this course, students will be able to:

- 1 Evaluate and critique the management of risk in international supply chains against best practice
- 2 Demonstrate a broad and integrated knowledge of the type and nature of risks that make international supply chains vulnerable
- 3 Apply risk analysis, simulation and modelling techniques to a selected range of supply chains

NQF Sub-strand

- Theoretical Understanding
- Theoretical Understanding
- Practical Application of knowledge
