VC7908   Package Design

Course Aim To develop students' understanding of packaging, its problems and the solutions.

Short Title		**Version**	3
Faculty	EDICT	**Effective From**	September 1, 2018
		Indicative NQF Level	7
Credits	15	**Student Contact hrs**	90
Pre-requisites	VC7201	**Self-directed hrs**	60
Co-requisites		**Other directed hrs**	
Anti-requisites		**Total learning hrs**	150

Learning Outcomes

On successful completion of this course, students will be able to:

1 Create and present packaging in a wide range of solutions which are both practical and distinctive in their graphic application and in structural concepts.

2 Repackage a specific product through critiquing current packaging methods and solutions.

3 Demonstrate an appropriate level of professional practice through attendance, group participation, discussions and presentations.
